

REMARKS

Applicants wish to provide the Examiner with a substituted specification. Amendments made to the specification are made to claim priority under 35 U.S.C 119 to a foreign application, and also to place the specification in the proper format according to U.S. practice and are fully supported by the application as filed herewith. No new matter is added by these amendments. Accordingly, entry of the substituted specification is respectfully requested.

Respectfully submitted,

Date: October 30 2003
